Electrical Power Hook-Up – The Chagrin Valley Jaycees will provide an electrician during move in on Friday evening. The electrician will assist you in connecting your food service unit to the city power or generator. The amperage rating of your circuit breaker will be sized according to the gauge and length of your unit’s power cable. The Chagrin Valley Jaycees will comply with the electrical code for circuit breaker rating. Even though you may request a specific circuit breaker on the application, the Chagrin Valley Jaycees will only install the breaker, if your unit’s power cable is sized accordingly, per the electrical code. The Chagrin Valley Jaycees will have personnel available for all hours of the event from move-in through tear down on Sunday. Please be aware that a circuit may trip from time to time given the large power demand of all the food units. We will provide our best efforts to get your food service unit wired and resolve any power issues as quickly as possible throughout the duration of the weekend.
