Electrical Power Hook-up: The Chagrin Valley Jaycees will provide an electrician during move-in on Friday evening. The electrician will assist you in connecting your food service unit to the city power or generator. The amperage rating of your circuit breaker will be sized according to the gauge and length of your unit's power cable. **YOU ARE RESPONSIBLE FOR SUPPLYING YOUR OWN CABLES.** The Chagrin Valley Jaycees will comply with the electrical code for circuit breaker rating. Even though you may request a specific circuit breaker on the application, the Chagrin Valley Jaycees will only install the breaker if your unit's power cable is sized appropriately as per the relevant electrical code. The Chagrin Valley Jaycees will have personnel available for all hours of the event from move-in through tear-down on Sunday. Please be aware that a circuit may trip from time to time given the large power demand of all the food units. We will undertake to get your food service unit wired and for any power issues to be resolved as quickly as possible and within the manpower and skill constraints of the organization, throughout the duration of the weekend.
